

**STRATEGIC**  
SEPTEMBER 15-17, 2009

**VISION**  
SAN DIEGO, CA

*Aligning Program and Project Management with Strategic Goals*

## **DEKKER PPM FORUM™ 2009**

### **FORUM OVERVIEW**

The Dekker PPM Forum™ 2009 will focus on how project-centric organizations can tie their program and project efforts into a comprehensive strategic vision that must permeate the entire organization. Learn about new approaches to tracking program and project performance that are revolutionizing the project management landscape and changing the ways organizations allocate increasingly scarce capital resources.

As a PMI® Registered Education Provider, Dekker offers Forum guests professional development units (PDUs) for attending the General Session and individual workshops covering the following areas:

- The Dekker TRAKKER® Application
- Primavera P6 Integration with Dekker PMIS™ (Program Management Information System)
- Using Microsoft Project within Dekker PMIS™
- Expanded Sort, Select, and Summarize functionality
- Enhancements to the brand-new Dekker PMIS™ Version 8.0

Registrants will attend presentations covering changes to government program and project paradigms, new reporting standards being mandated for Federal contractors, and cutting-edge PPM tools. Don't miss these unique training and networking opportunities, all taking place in beautiful San Diego, California.

### **TRAINING TRACKS** (Sept. 16 - 17)

#### **TRACK 1 - Dekker TRAKKER® Applications Workshop**

This 2-day TRAKKER Applications Workshop is an excellent way for users to get a quick start into the features and capabilities of the Dekker TRAKKER® project management tool. The curriculum includes scheduling, resourcing, costing, and the basics of project tracking. This course is designed for Dekker TRAKKER® users or those individuals who would like a hands-on introduction to Dekker TRAKKER®.

#### **TRACK 2 - Intermediate/Advanced User Tools**

This track is designed for those individuals already experienced in project tracking and who are interested in learning about the advanced uses and integration capabilities of the Dekker PMIS™. *This track includes:*

**Dekker PMIS™ Version 8.0 Enhancements:** The 8.0 release of the Dekker PMIS™ brings an unprecedented level of oversight and assessment functionality to project-centric organizations. This session will address many of those new features and explore how they can help organizations align programs and projects to larger strategies.

**Sort, Select, and Summarize (SSS):** This workshop provides students with a comprehensive view of the Dekker SSS reporting tool, which maximizes the presentation of information from the Dekker PMIS™ through Microsoft Excel. Users will learn how to take full advantage of the tool to meet the demands of organizational and customer reporting.

**Dekker PMIS™ Scheduling Integration:** Classes will be offered to users interested in learning about how the Dekker PMIS™ works with common software tools that project-centric organizations have invested in and are already using. Attendees will have the option of taking either a class focused on Microsoft Project or Primavera P6 integration.
